

Lake Balaton and Veszprém / Herend tour– whole day trip

Lake Balaton is the most popular summer resort with Hungarians. Visit picturesque Tihany and the Benedictine Abbey on the northern shore and take a walk at the top of the Tihany Peninsula – the best place to view the lake from.

Built on five hills, Veszprém, the town of the queens has a long history which goes back to our first king. Take a walk in the Castle Quarter and see the buildings which still bear witness to the olden days.

Herend porcelain is one of the world's most immediately recognizable Hungarian products. Visit the factory's workshop, see the brand's largest collection and how the noted porcelain is made.
